

Report of Virtual AGM April 2018

This year a virtual AGM was held. The voting forms were issued in the Newsletter and 87 responses were received, by post or as signed scans by email. This is the highest “attendance” at any recent AGM, perhaps catalysed by the request to consent to our continuing to hold personal information in accordance with the General Data protection Regulations that came into force in May 2018.

All existing Members and Officers offered to stand again and no other nominations were received. No respondees voted against any of the nominations and so all officers and members are appointed *nem.con*.
